📍 Ahmedabad, GJ, India

OBJECTIVE

Recent graduate with a strong academic background and a passion for continuous learning. Proven ability to quickly adapt to new technologies and environments, with a track record of strong problem-solving skills.

EDUCATION

- **Vishwakarma Government Engineering College, Ahmedabad** 2022 – 2026
B.Tech in Information & Technology CGPA: 7.69
- **Oxford School of Science, Amreli** 2020 – 2022
Higher Secondary in Science (PCM) Percentage: 92%

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, Java
- **Frameworks:** React, Next.js, Node.js (Expert), Express, REST API
- **Libraries:** Socket.IO, ZOD, Multer, Redux, Tailwind, Cloudinary, Material UI
- **Tools:** Docker (Partially), Postman, Git/GitHub, VS Code
- **Database:** MongoDB, MySQL

WORK EXPERIENCE

- **Foecht** Rajkot, India
Node.js Developer Intern Aug 2024 – Jan 2025
 - **Project Development:** Worked remotely for 6 months at Foecht, a Rajkot-based startup, developing scalable MERN stack web applications with Node.js, ensuring high performance and real-time functionality.
 - **API Optimization:** Engineered and optimized RESTful APIs to facilitate seamless communication between frontend and backend systems, reducing API response times by 30%.
 - **Team Collaboration:** Collaborated with cross-functional teams to implement agile methodologies, enhancing project delivery efficiency.
- **Self-Employed** Remote
Full Stack Developer (MERN) - Freelancer Aug 2022 – Aug 2024
 - **Project Delivery:** Developed and delivered scalable MERN stack applications for multiple clients, focusing on responsive UI and efficient backend systems.
 - **API Development:** Designed and implemented RESTful APIs using Node.js and Express, ensuring robust client-server communication.
 - **Client Collaboration:** Worked closely with clients to translate requirements into functional applications, integrating MongoDB for data management and React for dynamic frontends.

PROJECTS

- **NOC Issuance System** – *JavaScript, Node, React, MongoDB*:
A full-stack digital solution for fire NOC issuance.
 - **Automated Workflow:** Reduced processing time by 50% of Manual Paperwork..
 - **Secure File Uploads:** Used Cloudinary for Document Management.
 - Integrated email notification system using Nodemailer for real-time status updates to users and admins.
 - Implemented dynamic dashboards with role-based access and status filtering (e.g., pending, approved, rejected).
- **AI Trip Planner** – *Next.js, TypeScript, OpenWeatherMap API*:
A smart AI-powered travel assistant for planning ideal trips.
 - Fetched and analyzed **live weather data** to generate intelligent travel plans tailored to user preferences.
 - **AI-Driven Recommendations:** Optimized suggestions.
 - **Anything Near me:** You can find Anything Near you in just one click.
- **Real-Time Chat Application** – *JavaScript, Node, React, MongoDB*:
A modern chat platform supporting real-time communication.
 - **Group Chats:** Complete CRUD operation for group management with GroupAdmin.
 - Designed chat UI with React and Material UI, with responsive layout for mobile and desktop.
 - Used MongoDB for storing messages, user data, and chat history with efficient indexing for quick retrieval.

ACHIEVEMENTS & HACKATHONS

- **Team Lead, SIH 2024** – Developed an NOC issuance system, delivered innovative, real-world tech solution.
- Participated in **Techathone at GatewayGroupOfCompanies**: Learned how to build scalable systems and deployments.
- Solved **200+ DSA problems on LeetCode & GeeksforGeeks**, building problem-solving skills.
