OBJECTIVE

Recent graduate with a strong academic background and a passion for continuous learning. Proven ability to quickly adapt to new technologies and environments, with a track record of strong problem-solving skills.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java

Framework: React, NextJS, Node.js (Expert), Express, REST API

Libraries: Socket.IO, ZOD, Multer, Redux, Tailwind, Cloudinary, Material UI

Tools: Docker (Partially), Postman, Git/Github, VS Code

Database: MongoDB, MySQL

ACHIEVEMENTS & HACKATHONS

- **Team Lead, SIH 2024** – develop an NOC issuance system, delivered innovative, real-world tech solution.
- **Techathone At GatewayGroupOfCompnies** : Learned how to build Scalable systems, and deployments.
- Solved **200+** DSA problems on **LeetCode & GeeksforGeeks,** building problem solving skills.

WORK EXPERIENCE

NodeJs Developer Intern   **Remote**
Foecht   *Aug 2024 - Jan 2025*

- Worked remotely for 6 months at Foecht, a Rajkot based startup, developing scalable **MERN stack** web applications with Node.js, ensuring high performance and real-time functionality.
- Engineered and optimized **RESTful APIs** to facilitate seamless communication between frontend and backend systems, reducing API response times by 30%.

EDUCATION

Vishwakarma Government Engineering College, Ahmedabad   **2022-2026**
B.Tech in Information & Technology   *CGPA: 7.69*
Oxford School of Science, Amreli   **2020-2022**
Higher Secondary in Science (PCM)   *92 %*

PROJECTS

NOC Issuance System 🔗 — *JavaScript, Node, React, MongoDB*   **Hackathon - SIH**
Automated System which eliminates manual workflows and paperwork, to get Fire NOC.

- **Automated Workflow:** Reduced processing time by 50% of Manual Paperwork..
- **Secure File Uploads:** Used Cloudinary for Document Management.
- **Real-time Notifications:** for both Admin Dashboard as well as User Dashboard via Emailing.

AI Trip Planner 🔗 — *Next.js, TypeScript OpenWeatherMap API*   **Personal Project**
AI-powered trip planner according to weather insights, which gives travel itineraries based on AI.

- **Anything Near me:** You can find Anything Near you in just one click.
- **AI-Driven Recommendations:** Optimized suggestions.
- **Weather Integration:** Adjusts plans based on real-time data.

Real-Time Chat Application 🔗 — *JavaScript, Node, React, MongoDB*   **Personal Project**
Full-stack real-time chat application.

- **Instant Messaging:** enabling instant messaging for seamless real-time communication.
- **Group Chats:** Complete CRUD operation for group management with GroupAdmin.
